Pansies, Violas, Perennials, Fall Bulbs

MICHIGAN CUSTOMERS MUST INCLUDE THE 3% SALES TAX ON ALL ORDERS

We again urge our customers to get their pansy and viola plants this fall. When the ground is frozen cover them with a coarse mulch --never leaves-- and they will do better than spring planted stock. This applies also to English Daisies.

P a n s i e s

The following mixtures and separate colors in large flowering pansies will be available about October 15th through November, many in bud and bloom at that time. Order under fifty plants 8¢ each prepaid. Fifty and over 6¢ each by express collect. Assort as you wish, including English Daisies and Violas which are at the same price. Minimum order 25 plants. All plants are transplanted, field grown.

MAMMOTH SWISS--The finest strain of Swiss obtainable. Flowers are large, round, mostly with three or five blotches. A large per cent of rich reds are in this mixture. No more beautiful pansies than these.

SUPER MIXTURE--A combination of the finest in Swiss, America and Jumbo strains, plus some of the separate colors.

GREATER AMERICA--If you want a giant flowering pansy that is extra early, compact and completely covered with bloom, try this one. Rich in blues and yellows, with many variations; also purples and bronze.

MOON MOTH--A beautiful, immense pure white. Dark blue pencilings radiate from the center. 10¢ each prepaid.

BUTTERFLY HYBRIDS--A distinct strain of pastel colored pansies, many resembling colored butterflies. Exceptionally beautiful when grown in rich soil. Heat resistant. Owing to extremely high price of the seed, these plants 10¢ each prepaid.

MILE HIGH RADIANT FAWN--new--Each bloom has a definite butterfly design of dark brown with a narrow gold outline set on a golden bronze background. 10¢ each.

ALPENGLOW--A Swiss pansy, rich wine-red shades.

PORCELAIN BLUE--Light blue with a lighter center.

THUNDERSEA--Rich medium blue with darker center.

Violas are continually growing in popularity. Smaller flowering than regular pansies, they are freer blooming, bloom longer and stand the heat better, always making a grand display as border plants.

BLUE PERFECTION--Fine light blue

ARKWRIGHT RUBY--Best deep red viola

LORD NELSON--Violet purple

APRICOT--Deep rich color

WHITE PERFECTION--pure color

YELLOW GEM--Pure Yellow

Also a fine mixture of above and many others.
